

Sanika Deokule

— [LinkedIn](#) — [GitHub](#)

Skills Summary

- **Languages:** Java, Python, C, Deep Learning, CNNs, Machine Learning, NLP
- **Web:** HTML, CSS, JavaScript, React, Thymeleaf
- **Backend, Databases & Tools:** Spring Boot, JDBC, MySQL, PostgreSQL, Git, LaTeX, Graphviz
- **Soft Skills:** Effective Communication, Problem-Solving, Leadership, Team-Work, Time Management, Adaptability

Education

MKSSS's Cummins College of Engineering for Women, Pune

Aug 2023 – June 2027

Bachelor of Technology in Computer Engineering; CGPA: 9.1

Experience

LinkedIn — Software Developer Intern (ongoing)

June 2026 – Present

Projects

- **Trippy: FullStack Web Development** — *Java, Spring Boot, PostgreSQL, JDBC, React* [\[GitHub\]](#)
Won first prize in the Buffer 5.0 DSA Project Competition organised by Team Loop, Cummins College. Developed RESTful APIs to handle travel package data, including a search functionality for travel packages based on city and sorting packages by duration and star ratings.
- **Employee Leave Management System** — *Java, Spring Boot, Thymeleaf, MySQL* [\[GitHub\]](#)
Developed a web-based Employee Leave Management System with login, role-based access, and leave tracking. Enabled employees to apply for leave and admins to manage requests through a clean, user-friendly interface.
- **CampaignIQ** — *React, FastAPI, Machine Learning, OpenAI API, Google Ads API, JWT* [\[GitHub\]](#)
A digital media campaign performance optimization tool built with ML models and a complete full-stack dashboard (React + FastAPI) with JWT auth, an OpenAI-powered chatbot, and Google Ads API integration.
- **AirBnB Clone** — *Spring Boot, React, Stripe, JWT* [\[GitHub\]](#)
Production-ready Spring Boot application with dynamic pricing, Stripe payment integration, JWT authentication, and role-based access for users and hotel managers. Frontend built with React.
- **AgroVision AI: Plant Disease Prediction System** — *Python, TensorFlow/Keras, Flask, CNN* [\[GitHub\]](#)
Developed a CNN-based image classification system to identify plant diseases from leaf images with automated inference. Built a Flask web app enabling image upload and real-time prediction, displaying disease class, confidence score, and actionable guidance.
- **AI Mock Interview Platform** — *Python, NLP, Machine Learning, OpenAI API* [\[GitHub\]](#)
Created an automated mock interview platform that generates domain-specific questions and evaluates candidate responses. Applied NLP techniques to score responses and deliver feedback on content quality and communication.

Publications

- **A Comprehensive Review of Sanskrit Natural Language Processing: Pipeline, Progress, and Future Directions.** *Submitted to International Conference on Artificial Intelligence, Communication Technologies & Smart Cities (ICACS 2026); under review.*
- **Enhancing the Identification of Plant Diseases Using the CBAM-Fused EfficientNet-B0: An Implementation Based on Transfer Learning.** *Submitted to International Conference on Smart Computing for Sustainable Development (ICSCSD 2026); under review.*

Achievements

- **Microsoft Software Engineering For All (SEFA) Program** June 2025
Selected from top engineering students across premier institutes in India for a hands-on program covering the end-to-end software engineering lifecycle.
- **LinkedIn CoachIn Program** March 2025 – Present
Selected as one of 80 women (top 0.4%) from 18,000+ applicants for LinkedIn CoachIn, offering 1:1 mentorship and career support for women in tech.
- **Women Engineers (WE) Program — TalentSprint, supported by Google** Feb 2024 – Present
Selected as one of 200 women students (top 1%) from 30,000+ applicants nationwide. Awarded a 100% fee scholarship plus an additional INR 1,00,000. Built foundations in computational thinking, Python, and DSA.
- **Academic Excellence** Aug 2022 – March 2023
Recognised by the Maharashtra State Board for a top 1% rank in the Class 12 Board Examination (90.67%). Qualified for the SHE scholarship under the INSPIRE scheme; awarded INR 51,000 by the Pune Municipal Corporation for academic excellence.

Coding Profiles

- **LeetCode:** 400+ problems solved [\[Profile\]](#) — **GeeksforGeeks:** 180+ problems solved [\[Profile\]](#)
